Forecast for Sunday 25 Sep 2022

Weather: Early mist and fog patches will soon lift from valleys, clearing to leave a fine and bright morning. Fair weather cloud will build to give an afternoon of sunny spells. Cloud thickening from the northwest with rain arriving during the evening.

Chance of cloud-free hill tops above 600m: 70% soon improving to 90%. Falling to 40% in the northwest by midnight.

Low cloud and visibility: Early morning fog in the valleys may form banks of low cloud as it lifts and breaks, briefly shrouding higher summits. Cloud will be clear of summits for much of the day, before bases lower to 500m late on as rain arrives. Visibility very poor in early fog, otherwise very good. Visibility deteriorating, perhaps poor, within late rain.

Forecast for Monday 26 Sep 2022

Weather: Rain, locally heavy, clearing by midnight, with clear spells and showers following on behind. A bright day follows, with sunny spells and scattered showers, locally heavy. Notably cooler, especially on exposed terrain in strong northwesterly winds.

Maximum wind: Northwesterly 20-25mph, gusting 30-40mph.

Chance of cloud-free hill tops above 600m: 40% at first, becoming 70% as early rain clears.

Low cloud and visibility: Cloud bases of 400-600m at first, mainly in early rain and on exposed westerly slopes. Cloud lifting clear of summits by mid-morning, however bases may temporarily lower to around 500-700m in any showers. Visibility very good outside of cloud, with sudden deteriorations to poor in squally showers.

Temperature: **Valleys:** Plus 2 Celsius, gradually rising to Plus 10 Celsius.
At 600m: Plus 2 Celsius, gradually rising to Plus 9 Celsius
Freezing level: Remaining above summits.
